

Simplify your surfing

Elevate your browsing experience with these tips to improve readability and enhance focus.

Adjust text size

Make reading online easier by zooming in or out to adjust the text size.

Pro tip:

You can set custom zoom levels for specific websites.

How to access:

Go to Settings and more > Settings > Accessibility and select the desired zoom level under Page zoom.

Keyboard shortcut: **Ctrl + +** or **-**

Have web content read to you

Step away from the screen or improve your reading comprehension by having Edge read webpages aloud to you.

Pro tip:

Customize Read aloud by adjusting the speaking speed, voice, and even the accent.

How to access:

Right-click on the page and select "Read aloud".

Keyboard shortcut: **Ctrl + Shift + U**

Read without distractions

Enjoy a distraction-free reading experience with Immersive Reader, which provides a cleaner, simpler webpage layout and minimizes images.

Pro tip:

Customize Immersive Reader by changing the formatting, fonts, text size, and spacing to fit your preferences.

How to access:

Select the text you want to read, then right-click and select "Open selection in Immersive Reader".

Improve readability with high-contrast colors

Reduce eye strain and get a more personalized browsing experience by changing the color scheme of web pages.

Pro tip:

Dark mode is available if you prefer a darker theme.

How to access:

Go to Settings and more > Settings > Accessibility and choose your preferred color theme under "Page colors"

Check out the Accessibility Settings page for more Accessibility options!
Go to Settings and more [...] > Settings > Accessibility
